The NAEMSP Preparedness Committee is collaborating with the Emergency Care Coordination Center (ECCC) to bring an exciting pre-conference agenda to NAEMSP's Annual meeting in Bonita Springs Florida, Tuesday, January 8th, 2013. As part of the U.S. Department of Health and Human Service's Office of the Assistant Secretary for Preparedness and Response, the ECCC is committed to the promotion and enhancement of initiatives that will improve the resiliency, efficiency, and effectiveness of emergency care across the entire continuum of patient care—from the pre-hospital environment, to the emergency department, and final patient disposition. The one-day pre-conference agenda focuses on EMS and Emergency Care preparedness subjects. Topics span from the National Burn Surge Framework, Evolution of the National Disaster Medical System to ESF-8: Intersecting and Coordinating with the Emergency Care Enterprise to Bystander Assistance in Disasters, and other relevant topics. Looking forward to seeing you in Bonita Springs for this very informative program!

Brian Schwartz, Alex Isakov and Gregg Lord
